**Re: Implementation of Pay Telephone Reclassification and Compensation  
CC Docket No. 96-128**

Dear Ms. Salas,

Please accept the enclosed original information and four (4) copies for inclusion in the record of this proceeding. This information was requested in Jeffrey Carlisle's letter dated December 20, 2001 seeking additional information to address the issues remanded by the Court in *Illinois Pub. Telecomm. Ass'n v. FCC*, 117 F.3d 555 (D.C. Cir. 1997), *clarified on reh'g*, 123 F.3d 693 (D.C. Cir. 1997), *cert. denied sub nom. Virginia State Corp. Comm'n v. FCC*, 523 U.S. 1046 (1998).

The four (4) attached documents contains information for Southwestern Bell, Pacific Bell, Nevada Bell, Ameritech and SNET.

Please be advised that this information lists the number of interLATA call attempts routed to a point of presence (POP) of specified interexchange carriers (IXCs) only.

The information contained in the attachments should be treated as confidential. Thus, we are filing both a confidential and public version.

Should you have any questions, please contact me at (202) 326-8852.

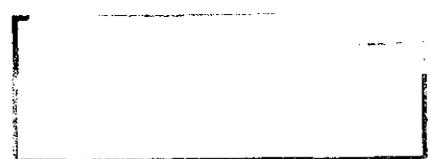

Sincerely,

Cc: Lynne Milne, FCC, Competitive Pricing Division  
Craig Stroup, FCC, Industry Analysis Division

**FCC Data Request per 12-20-2002 letter**

*prepared 01-21-2002 by J Burgess (214) 464-8006*

**The data is distributed over three tabs:**

1997 tab represents all four quarters of 1997  
1998 tab represents all four quarters of 1998  
2000Q4 thru 2001Q3 represents four quarters

- PB:** Data from Pacific Bell was provided for all quarters requested.
- NB:** Data from Nevada Bell was only provided for 1997Q3 through end of 2001.  
No more data from Nevada Bell is available as it was not archived past 1997Q3.
- SWBT:** Data from Southwestern Bell (five states) was only provided for 1997Q4 through 2001Q3.  
Data prior to 1997Q4 is not available as it was not archived at the detail level necessary for this report.
- AMER:** Data was only available for all payphone providers for the three quarters of 2001.  
Data was available for some of the other quarters prior to 2001, but limited to SBC/Ameritech's Public Communications Group.  
Additional data is available for some of the quarters prior to 2001 for SBC/Ameritech's non-Public Communications. However, one additional month will be required for this data to be collected and made available.  
No data was archived prior to 1997Q3 for any party and will not be available.  
Where Public Communications data was used, CIC codes were obtained by matching the carrier name to the end of 98 CIC list from the NANPA.  
Their data was saved by name and not CIC. The resulting conversion caused data to be posted in some instances to the predominant CIC where more than one CIC was present.  
Ameritech data includes all five states.
- SNET** Data was only available for the requested quarters 2000Q4 thru 2001 Q3. Data for 1997 and 1998 is not available.
- Other** Actual sources of data vary from region to region but all are based on AMA data.  
ANI coding digit information is not stored at the call detail level.  
Data was limited to calls originating from payphone classes of service eligible for the ANI coding digits of 70 or 27.  
All inmate, 1+, 0+, 1010XXX 1+ And 1010XXX 0+ were excluded.  
Calls that received a busy, don't answer, or intercept recording were also excluded.
